- Typescript

INTERESTS

- Hackathons - 1st Place HackTX 2018
- Backpacking - England | Spain | Portugal | Italy | Thailand
- Science Fiction & Fantasy
- HackerRank - amlidoscg

PROJECTS

myStoreHealth

- Helped design, build, and grow the myStoreHealth application from 260 thousand to 5.6 million annual page views - which is now widely used in every Home Depot

Articulate

- Created a mobile application to help improve our user's public speaking skills using natural language processing to track the amount of filler words used
- The project won 1st place at HackTX 2018, the largest hackathon in Texas

PROFESSIONAL EXPERIENCE

Home Depot | Austin, Texas

Senior Software Engineer | 2020 - Present
Software Engineer | 2019 - 2020

- Designing and implementing APIs within my organization along with being the GCP liaison for the myStoreHealth team.
- Creating and maintaining the Android and iOS versions of the myStoreHealth mobile app that is now widely used in the store and corporate environments

Home Depot | Austin, Texas

Software Engineer Intern | 2017 & 2018

- Used Angular, Node, and Express to develop a management dashboard called myStoreHealth
- Optimized API calls for use at scale, and developed comprehensive unit and end to end tests

Pickle Research Center | Austin, Texas

NASA ROSES Intern | 2010

- Worked with scientists at NASA to create a web application displaying data captured by InSAR satellites and displayed it utilizing the Google Maps API
- Attended several presentations concerning ongoing research into space and earth science that NASA was conducting at the time

ORGANIZATIONS

Habitat for Humanity

- I participate in Habitat for Humanity builds every year. The program's goal is to create self-sufficient communities for those where there is a need.
